

Two-Bath Smart / Mechanical Plumbing and Hall Tub

Hot and cold water feed the shared smart valve. Two checked mixed-water sources feed each bathroom through a common tee. Peregrine is the default Hall tub; Venice remains the alternate.

Hot water Cold water Mixed water

Purple mixed-water Outlet A and Outlet B

Peregrine default: approximately 763 lb. for the listed tub and 70 gallons of water, before the occupant and surround. Confirm floor and hot-water capacity during design.

Electrical coordination: Lowe's lists the Peregrine at 120 V / 15 A. Use the delivered tub's nameplate and model-specific instructions for final circuit sizing.

Page 2 - Lowe's + Ferguson Cost Breakdown

Prices checked August 28-29, 2026. All priced items use Lowe's except the Moen controller, which uses Ferguson Home. The default total uses the Hall-bath Peregrine tub and the coordinated Delta Ashlyn Stainless trim package. Prices exclude tax, delivery, installation labor, piping, electrical work, and unselected fixtures.
